

### RESPITE SERVICES

Respite Care is a program for families who have a family member with a developmental disability living in the family home. Respite Care helps families feel at ease about getting away and getting a break. Respite Care can offer families an opportunity to take some well deserved time for themselves.

*The Family Support Services Program reaches out to people with an eligible family member with developmental disabilities who lives in the family home. This includes those whose development is significantly delayed as well as those with conditions associated with a significant delay. For people above the age of five, eligibility is generally determined by a significant cognitive delay (IQ score of 70 or less).*

**RESPITE** \res-pet:  
An interval of rest or relief.

**Families of people with developmental disabilities are best able to determine their own needs and should be empowered to make decisions concerning appropriate services and supports.**

**Serving Delta,  
San Miguel, Hinsdale, Ouray,  
Montrose and Gunnison  
Counties**
